**EXECUTIVE COMMITTEE**

Chairman McHugh reported that the Executive Committee met on Thursday, February 28 and had one action item: the ratification of the long-range facilities plan in connection with the CSUS 2020 program.

The Chairman remarked that in November Governor Rell, under Public Act 07-7 of the June Special Session, established the capital budget for the FY 2008 and FY 2009 biennium, as well as CSUS 2020 which authorizes up to $950 million in general obligation bonds over ten years for CSUS capital improvement projects. The bond issuance required the one-time approval of the program by the State Bond Commission and annual approval of lump sum allocations by the Governor. The legislation also required that on or before March 1 of each year, CSUS must submit to the Governor, the Treasurer and the Secretary of the Office of Policy and Management, the most recently approved facilities plan and the amount of bonds required for the CSUS 2020 program for the fiscal year beginning on July first of that year.

Given that the last long-range facilities plan approved by the Board was the Five-Year Facilities Plan adopted in Fall 2006, the Chairman stated it was necessary for the Executive Committee to approve the ten-year facilities plan for CSUS 2020 so that it could be submitted by March 1 as required by statute. **The Chairman requested a motion to ratify the February 28 action of the Executive Committee approving the long-range facilities plan established for the CSUS 2020 program; on a motion by Trustee Sholtis, seconded by Trustee Williams, the following resolution was unanimously approved:**
WHEREAS, The Board of Trustees under its statutory authority - CGS Sec. 10a-89 (b) - shall “...(2) propose facility planning and capital expenditure budget priorities for the institutions under its jurisdiction;” and

WHEREAS, Public Act 07-7 of the June Special Session provides for “The Connecticut State University System Infrastructure Act” and establishes CSUS 2020 by authorizing up to $950 million in general obligation bonds over ten years, beginning Fiscal Year 2009 and ending Fiscal Year 2018, for the purpose of renewing, modernizing, enhancing, expanding, acquiring and maintaining the infrastructure of the Connecticut State University System, and

WHEREAS, The legislation requires that on or before March 1 of each year, the Board of Trustees shall submit to the Governor, the Treasurer and the Secretary of the Office of Policy and Management, the most recently approved facilities plan and the amount of bonds required for the CSUS 2020 program for the fiscal year beginning on July 1 of that year, and

WHEREAS, The recommended long-range facilities plan establishes a ten-year schedule of allocations for Connecticut State University System capital projects and identifies the need for $95 million annually in general obligation bonds, and

WHEREAS, The recommended long-range facilities plan is based upon the Five-Year Facilities Plan adopted by the Board of Trustees in Fall 2006 (BR #06-59), which established the priority of projects to be initiated for design and/or construction through Fiscal Year 2012, and was developed in consultation with the universities, now therefore be it

RESOLVED, That the Board of Trustees approves the long-range facilities plan, including the capital projects and the annual funding amounts as set forth in Attachment A to this resolution, and be it further

RESOLVED, That Board Resolution #06-59 is rescinded.
