Dear Chet:

CONNECTICUT STATE COLLEGES -- SRX 42832

You recently informed me that the Connecticut State Colleges had inquired about spouse and family coverage under this plan.

We would be agreeable to adding this feature to the Program, and would propose the following rates which are based on the rates currently being charged for the 1973-74 school year:

The spouse and family coverage would be available only to those students who had purchased both the accident and sickness coverage.

The cost for the addition of spouse would be an additional $41. The cost for adding the spouse and dependent children would be an additional $84 annually.

These rates must be filed and approved by the Connecticut Insurance Department.

Please let me know if you have any further questions.

Sincerely,

John J. Sullivan
