In order to have proper coordination with payroll procedures established for ten-month instructional faculty under the twelve-month bi-weekly pay requirement, it will be necessary to adhere to the following guidelines in completing documents and forms relating to personnel transactions. These will include such things as Personnel Changes, Employment Contracts, Report of Personnel Transactions (SC-1), and miscellaneous personnel and payroll forms.

1. The effective date of appointment or return from leave will be the first day of the semester, or the first day of assignment if the hiring or return occurs after the beginning of a semester.

2. The effective date of approved leave for a full academic year or for a full semester will be the first day of the first (or only) semester during which the employee is on leave. The first day of release from assignment will be the effective date for an employee going on leave after the beginning of a semester.

3. The effective date of termination of services, if at the end of a complete academic year, will be as of the close of business (c.o.b.) on the 217th payroll day of that year (completion of period of obligation), or, if at the end of a single completed semester, will be as of mid-day of the 109th payroll day of that semester. The close of business on the last day of assignment will be the effective date for an employee terminating before the end of a semester.

4. The effective date of a change in status (promotion, hours of work, etc.) will be the first day of assignment in the new status.
5. If, because of illness, decease or other extenuating circumstances, an employee must terminate shortly before completion of the semester's assignment or during the interval between such completion of assignment and the final obligatory day of the semester, and if the College President believes that the circumstances warrant paying the employee beyond the last day of the employee's availability for assignment, such later date, within the period of obligation, as shall be designated by the President will be the effective date of termination.
Payroll procedures for termination of ten-month administrators.

This is in response to your letters of April 1 and June 1, 1976 concerning procedures for ten-month administrators at time of reassignment, resignation or retirement. I've talked with Dr. Ritchie about your question and it was decided that, because of the pressure of other business and because of the need to obtain answers for several related questions, it would be best for this year to follow, to the extent possible, the procedures established for ten-month instructional faculty.
