RESOLUTION

concerning

Alteration in Duties for

Assistant Director of Information Systems

In the Central Office

May 7, 1982

RESOLVED, That the duties for the position, Assistant Director of Information Systems/Administrator III, in the Central Office of the Connecticut State Colleges be altered effective April 30, 1982, in accordance with all provisions and expectations as set forth in the proposal dated April 28, 1982, which is attached as an addendum to this Resolution.

A Certified True Copy:

James A. Frost
Executive Director
UNCLASSIFIED POSITION ALTERATION SUMMARY

Title: Assistant Director, Information Systems/Administrator III

Fund: General

Position Type: Permanent X Part-time ___

Effective Date: April 30, 1982

Cost: $3,000

Campus: Central Office

Proposal: To alter the duties and responsibilities of the position Assistant Director, Information Systems/Administrator III so that they more appropriately reflect the tasks which are now required to be performed. A commensurate adjustment in salary is also reflected.

Summary:

Because of the incumbent's willingness to assume responsibility as well as his capacity for taking on more and more tasks, his current mode of operation is significantly more demanding than at the time he was an entry level employee. These changes are reflected in the new job description.

I think it is appropriate at this time to consider reclassification because of the significant changes in the job.

In addition, the incumbent has now gained enough knowledge and experience to be eligible for many other higher level positions both in and out of state-service. This is apparent to me by the serious consideration given the incumbent for the Director's job at WCSC and the Community College Directors position.

Loss of the incumbent at this time would stall several major projects and set us back in our timetable for other projects. With the market demand for programmer/analyst the way it is now, if the incumbent left, we might even be faced with hiring an entry level employee higher than now paid. Western just hired one of our students with no experience at $23,000.

Date: April 28, 1982

Addendum to BR# 82-41
