RATIONALE FOR ALTERING POSITION

The present Administrator II position performs a basic security function for the University Student Center. The incumbent locks and unlocks doors, puts up signs, sets up equipment, and sometimes works with student workers and custodians in moving furniture and equipment for programs. The incumbent works 25 hours each week. We hope to change the position to a full-time status with professional responsibilities to assist other professional staff in the planning and execution of programs and services. Our rationale is as follows:

1. As a new Dean of Student Affairs I am concerned with campus environment and with the quantity and quality of programming on the SCSU campus. I have established an increase in campus student programs and services as a priority within the Student Affairs Division.

2. The change in the number of hours and in the status of this position would result in a professional staff member being available in planning and program execution status whenever the Student Center is open and functioning. I do not propose to decrease expectations that other professional staff will continue to perform their fair share of night and weekend duties.

3. We expect a resignation from the present incumbent with the Administrator III position in the Student Center within a matter of weeks. These two positions will alternate in some of the evening and weekend responsibilities in the future. Replacement of the two incumbents, even considering the extension of hours for the Administrator II, should result in a net annual savings of salary and fringes of from $6,000.00 to $15,000.00.

4. We have been working closely with Student Center, Athletics, Housing, Activities/Special Events, Food Service, and the Office of Continuing Education to create a summer conference and camps program for SCSU. The changes in Student Center Administrator II position description reflects the need to have professional coverage throughout the day and evening throughout the entire year.

5. We intend to increase some of the evening and weekend hours and services during Summer months to increase the amount of services and programs available to our students, staff, alumni, and visitors.

6. The changes we anticipate for the Student Center are consistent with a number of new directions established within Student Affairs. These include the new "Weekends at Southern" concept to be implemented during the Spring Semester of 1984, the planned statewide Student Leadership Conference planned in March of 1984, and other additional changes in the level of programs and services on this campus.

Essentially, we expect to save money in salary and fringes, increase programming, provide more professional evening and weekend programs and service planning, add services for summer conferences and camps, and to meet institutional goals and objectives related to providing a better environment for our students, staff, faculty, and alumni.
