Source: BOR enrollment database used for IPEDS reporting

(1) IMPORTANT NOTE: Headcount enrollments prior to fall 2012 included students who were exclusively auditing classes or courses that cannot be applied towards a formal award as well as students studying abroad but paying only a nominal fee at their home institution, even though IPEDS instructs institutions to exclude these students from headcount enrollment. These students are not included in fall 2012 and later years, in accordance with IPEDS definitions.

(2) Charter Oak State College through 2011 historically included students who were affiliated with the college for the purposes of transcript evaluation and degree aggregation but were not enrolled for credit, although this practice is not consistent with IPEDS enrollment reporting definitions. The decrease in enrollment for Charter Oak State College is entirely attributable to this change in reporting practice.

(3) Data for Fall 2013 are census-date counts, except for Charter Oak State College (see n. 2). Data were not official until reported to IPEDS in spring 2014.

About these data

Enrollments as of Fall 2015 are those as of institutions' respective Fall census dates, which correspond to approximately three weeks after the start of the classes, with the exception of Charter Oak State College whose census date is approximately 2 months after the start of classes. Data prior to Fall 2015 were obtained via the Integrated Postsecondary Education Data System (IPEDS).

Prepared by the Connecticut State College and Universities, Office of Research and System Effectiveness, October 31, 2016.

Source: BOR enrollment database used for IPEDS reporting

(1) IMPORTANT NOTE: Headcount enrollments prior to fall 2012 included students who were exclusively auditing classes or courses that cannot be applied towards a formal award as well as students studying abroad but paying only a nominal fee at their home institution, even though IPEDS instructs institutions to exclude these students from headcount enrollment. These students are not included in fall 2012 and later years, in accordance with IPEDS definitions.

(2) Charter Oak State College through 2011 historically included students who were affiliated with the college for the purposes of transcript evaluation and degree aggregation but were not enrolled for credit, although this practice is not consistent with IPEDS enrollment reporting definitions. The decrease in enrollment for Charter Oak State College is entirely attributable to this change in reporting practice.

(3) Data for Fall 2013 are census-date counts, except for Charter Oak State College (see n. 2). Data were not official until reported to IPEDS in spring 2014.

About these data

Enrollments as of Fall 2015 are those as of institutions' respective Fall census dates, which correspond to approximately three weeks after the start of the classes, with the exception of Charter Oak State College whose census date is approximately 2 months after the start of classes. Data prior to Fall 2015 were obtained via the Integrated Postsecondary Education Data System (IPEDS).

Prepared by the Connecticut State College and Universities, Office of Research and System Effectiveness, October 31, 2016.

Source: BOR enrollment database used for IPEDS reporting

(1) IMPORTANT NOTE: Headcount enrollments prior to fall 2012 included students who were exclusively auditing classes or courses that cannot be applied towards a formal award as well as students studying abroad but paying only a nominal fee at their home institution, even though IPEDS instructs institutions to exclude these students from headcount enrollment. These students are not included in fall 2012 and later years, in accordance with IPEDS definitions.

(2) Charter Oak State College through 2011 historically included students who were affiliated with the college for the purposes of transcript evaluation and degree aggregation but were not enrolled for credit, although this practice is not consistent with IPEDS enrollment reporting definitions. The decrease in enrollment for Charter Oak State College is entirely attributable to this change in reporting practice.

About these data

Enrollments as of Fall 2015 are those as of institutions' respective Fall census dates, which correspond to approximately three weeks after the start of the classes, with the exception of Charter Oak State College whose census date is approximately 2 months after the start of classes. Data prior to Fall 2015 were obtained via the Integrated Postsecondary Education Data System (IPEDS).

Prepared by the Connecticut State College and Universities, Office of Research and System Effectiveness, October 31, 2016.
