Students retain this unique identifier as they progress through the school system and even if they transfer or move in and out of private schools our across state boarders. Section 14 of PA 11-70 requires that each public institution of higher education and each independent institution of higher education that receives state funding to track the SASID of all in-state students until such students graduate from or terminate enrollment at the institution.

- D. Participating Agencies:** The Participating Agencies are the Connecticut Board of Regents for Higher Education (BOR), the Connecticut State Board of Education, the Connecticut Department of Labor and those entities that have been approved for participation in P20 WIN by every Participating Agency and that have executed a similar Memorandum of Agreement with DOL.
- E. Data Request Management:** The required review process for each data request posed to the system. The Data Request Management process is set forth in the P20 WIN Data Request Management Procedure attached as Appendix C hereto. In all cases no BOR data will be included in the data match unless BOR has approved the inclusion of BOR data before the data request is processed and BOR has approved the individual(s) or entities that have authority to access to the resulting data set.
- II. Authorized Representative:** The Board of Regents designates DOL as its "authorized representative" pursuant to FERPA for the permitted access and use of PII as set forth within this Agreement.
- III. Participation in P20 WIN:**
Participating Agencies shall provide data necessary for conducting a match between data sets to DOL to evaluate both K-12 and postsecondary education programs and assess the degree to which education programs are preparing students for post-secondary education and the workforce and to assess the efficacy of state or federally supported higher education grant programs and for other audit and evaluation activities as defined under FERPA that are approved by BOR and other Participating Agencies pursuant to this Agreement and the P20 WIN Data Request Management Procedure. The Participating Agencies will abide by policies, including the assignment of additional obligations, adopted by the P20 WIN Executive Board.
- IV. Methodology**
The BOR and DOL agree to the following methodology for data matching and access by DOL:
- After a data request has been approved in accord with the P20 WIN Data Request Management Procedure, Participating Agencies whose data is a part of the request shall send files to DOL which contain only limited PII for matching the records that are needed to satisfy the approved Data Request. In addition to limited PII, each input file shall contain a generic unique identifier for each person record. The generic unique identifier will bear no resemblance to or contain any part of an individual's education data.
- Upon receipt of all required input data sets, DOL shall utilize data matching software approved by the Data Governing Board to identify matches between the data sets. Once the matching is complete, DOL will strip the PII from the matched data file. The stripped PII and the PII in the original data files shall be destroyed. The resulting file, containing a matrix of the generic

unique identifiers that reflects how the original data sets can be linked, shall be sent to the approved requestor for the completion of the approved data request.
