GUIDELINES:

THE BOARD OF REGENTS RESEARCH AWARDS

General Information

These guidelines are established to implement the Resolution adopted by the Board of Regents on May 16, 2013 regarding the establishment of Board of Regents Awards.

The awards are given to recognize faculty from the state universities who are doing exceptional research/creative work.

Eligibility

Assistant and Associate Professors in tenure-track or tenured positions at the state universities

Recipients of an award will not be eligible for reconsideration for the award for three years

Nominees for an award must be eligible for continued appointment in the following academic year

Criteria

Nominations should be based upon research/creative activities in the last five years:

a) the actual or potential impact of the research/creative work in the relevant field,

b) the actual or potential of the research/creative work for publication, and/or

c) the actual or potential of the research/creative work for external peer recognition

Nominations

Nominators, supporters, and nominees are expected to document a nominee’s substantive contributions/achievements and scholarly activities in his/her academic field during the last five years by submitting strong, persuasive evidence of scholarly research and/or creative accomplishments.

Departments and programs are encouraged to nominate worthy candidates among women, faculty of color and members of other groups historically underrepresented in their discipline.
Number of Awards

There might be a total of five awards granted by the Board of Regents for Higher Education: one Campus-Based Award of $1,000 to a faculty member from each Connecticut State University and another single System Award of $1,000 to that individual among the campus-based awardees who best exemplifies high quality research/creative activity.

Source of Nominations

Nominations may originate from: Deans, Directors, Department/Program Heads, administrators, award committees, and individual or groups of faculty members. All nominations should be coordinated through the appropriate academic unit (e.g. Dean’s office, departmental or program office), as determined by the institution’s selection process - see below. A complete nomination will consist of:

1) Cover Sheet
2) Letter of Nomination by nominator(s) of no more than two typed pages advocating the basis for the nomination – relating nominee’s research/creative activities to the criteria for the awards
3) Nominee’s Reflective Statement discussing research/creative work providing supporting evidence for Letter of Nomination of no more than five typed pages
4) Letters of Support from one to three internal or external colleagues to complement the Letter of Nomination, one to two typed pages each
5) Nominee’s curriculum vitae – abbreviated and concise, no more than five pages

NOTE: Excessive elements of the nomination package will not be shared with members of the System Award Selection Committee, per their time-sensitive review/assessment process.

Selection Process

For the Campus-Based Awards

Each campus, under the leadership of its chief academic officer, will determine a process for reviewing and recommending one appropriate candidate for consideration for the Research Award. The selection process should be centered on the awards’ criteria. Once a candidate has been identified, the president will electronically submit the nomination to the Board of Regents, addressed to Dr. Jane M. Gates, Provost and Senior Vice President for Academic and Student Affairs to the attention of Arthur Poole at APoole@commnet.edu.
A campus may determine that there are no nominations sufficiently compelling to recommend for the award in a given year.

**For the System Award**

The System Award recipient will be selected from the submitted campus nominations. These nominations will be reviewed by a committee composed of award recipients from prior years. The Selection Committee is established and coordinated by the System’s Office of the Provost. After reviewing the nominations, the committee will forward its recommendation to the Board of Regents through the System’s Office of the Provost for the final selection process.

**Publicity**

The System Office will work with personnel at the CSCU institutions to ensure that visibility is given to the awards through local and statewide print and electronic media.

**Awards Timeline**

Each year, the Provost and Senior Vice President for Academic and Student Affairs will issue a call for nominations and establish and inform the CSCU community of a detailed awards’ timeline. A broadly defined timeline is listed below:

- **October** Call for Nominations issued
- **November - December** Nominations due at each campus
- **December - January** Review of nominations by campuses
- **January** Campuses forward nominations and support materials to Office of the Provost
- **January - February** System Award selection committee reviews recommendations and submits System Award recommendations to Office of the Provost
- **March** Academic and Student Affairs Committee of the Board of Regents reviews recommendations and endorses the final selections
- **March - April** Board of Regents makes final selections
- **April 13th** Board of Regents recognizes Award recipients at Faculty Advisory Committee’s Annual Conference
- **April - May** Campuses may conduct local institutional Recognition Ceremony
