Connecticut
Health & Life Sciences Career Initiative
The Health & Life Sciences Career Initiative (HL-SCI) will prepare unemployed or underemployed individuals (including veterans, trade adjustment assistance impacted workers, dislocated workers and others) for careers in the health and life sciences.

PARTICIPATING INSTITUTIONS
- Capital Community College
- Gateway Community College
- Manchester Community College
- Middlesex Community College
- Norwalk Community College
- Charter Oak State College
- Eastern Connecticut State University

HOW THE INITIATIVE WORKS
- Creates 15 new certificate/degree programs and aligns for-credit certificate programs with industry credentials.
- Offers math and science boosters online and as smartphone apps.
- Offers online/hybrid learning courses to accelerate course completion.
- Enables students to earn college credits for work skills and on-the-job learning, helping to reduce time to completion.
- Helps HL-SCI participants find jobs in the industry.

GROWTH IN CONNECTICUT
- In Connecticut, the health and life sciences represent an area of strategic growth supported by significant public and private investment.
- Approximately 200,000 people in the state work in health and life science industries, with another 11,000 additional jobs expected in the next eight years.
