RESOLUTION

RESOLVED,

That the salary of the Assistant to the Director of Media Services/Adm. II be increased by $200 bi-weekly, effective November 6, 1987, in accordance with the attached proposal and justification dated October 3, 1987.

A Certified True Copy

Dallas K. Beal, President, CSU

JUSTIFICATION: (Use Reverse Side If Additional Space Is Needed)

When this position was created and the incumbent was hired, the idea was to experiment with having our own expert to repair micro-computers and other electronic equipment. In less than two years, the amount of equipment to be maintained has trebled and the incumbent has acquired a number of student assistants. It is now estimated that the University saves over $200,000 a year by having the incumbent on the payroll. A survey quickly shows that he is being seriously underpaid for the talents he brings us. A $200 bi-weekly increase (5200 annually) on top of any collective bargaining increase which eventually results from current negotiations will help rectify this situation.

$5,200.
