**EXPLAIN THE NATURE OF THE PROPOSAL:**

To reclassify the currently vacant position of Plant & Facilities Engineer 2 to that of Executive Assistant to the President.

**JUSTIFICATION:**

The modern university president requires a high level, full-time executive assistant just to keep track of and follow up on the multitudinous activities he is required to be engaged in. Currently, this function is being performed by a faculty member on three-quarters reassigned time and special summer and intersession load.

Whether the present Special Assistant goes back to the faculty or gains this new position, the net impact on the combined General and Extension Fund salary expenditures of the University will be nil.
