AY 2019-2020

### Changes

Changes from AY 2016/2017, when the CSCU Pathway Transfer A.A. Degree: Chemistry Studies was first offered.

- SCSU made changes to their LEP and foreign language requirements that do not affect the requirements for the community college pathway degree, but may affect the way the student is received at SCSU.
- Clarified Additional General Education I & II options.
- Corrections made to COSC General Education requirements: added IDS 101.

12/06/2017

- Page 12. Removed PHY 121 and 122 as options for WCSU's non-ACS Certified program.

04/17/2018

- Updated WCSU programs to reflect changes in general education requirements

05/08/2018

- Updated COSC program

07/26/2018

- Removed COSC program

Learning Outcomes:

1. Complete an Associate of Arts degree in Chemistry Studies and transfer seamlessly into a Bachelor of Arts/Science degree program in Chemistry with junior-level status in the receiving CSCU institution as part of the CSCU Transfer Tickets program.
2. Demonstrate an understanding of fundamental chemical principles by applying critical thinking and problem solving skills in the solution of chemical problems.
3. Plan and implement data collection strategies appropriate to a particular scientific question, record and present the data clearly, and analyze the results accurately.
4. Recall and employ the proper procedures and regulations for safe handling, use, and disposal of chemicals.
