Information on Background Checks & Toxicology Screenings for CT-CCNP Students

Due to clinical learning affiliate requirements, criminal background checks and toxicology (drug) screening may be required for all CT-CCNP students prior to participation in clinical experiences. Students must follow instructions for obtaining a background and/or toxicology screening at college of attendance.

Students who are found guilty of having committed a felony/misdemeanor and/or are found to have a positive toxicology screen may be prevented from participating in clinical experiences in accordance with clinical learning facility policy. Results of student background checks and toxicology screening do not become a part of the student’s educational record, as defined by the Family Educational Rights and Privacy Act (“FERPA”).
